I used this several years ago when I worked for The Autism Society of NC & loved it.

Not sure what it is yet

I would like to be able to enter grid notes on an electronic grid form.

Classroom training or supervisor trains employee

Still haven't got my trainings for online Billings would love to start it

No

Web cam in the conference room in building 1

Attempted to complete training, could not sign onto sight

Looking forward to launching our NEW website:-)

Make electronic billing mandatory for all new staff.

I have been doing the test run. Need to perfect the OnTarget for cell phone compatibility. You can't sign notes on it right now. You can enter your information, but have to go to a computer to sign off. I use to be able to sign off on my phone till the update was done.

It was somewhat confusing until getting on

I prefer the classroom for some classes. At times the interaction with others gives very valuable insight as well as solutions with problems we may have with our consumers.
